Journal of Economics and Business 59 (2007) III

Journal of Economics & Business

Volume 59 Title Index

The micro–macro policy game under uncertainty and risk attitude, 1–13

A dynamic analysis of an economy with banking optimization and capital adequacy regulations, 14–27

The central bank and speculators in the foreign exchange market under asymmetric information: A strategic approach and evidence, 28–50

Revisiting the empirical evidence on firms' money demand, 51–73

Glamour, value, and the form of takeover, 74–87

Evidence on private equity offering announcements: Strong and weak firms' pooling versus separation, 89–110

The impact of the return to lagged reserve requirements on the federal funds market, 111–129

When competing momentum hypotheses really do not compete: How the sources of momentum profits change through time, 130–143

The value of adaptability—Through the analysis of a firm's prediction ability, 144–162

Investigating sales and advertising rivalry in the UK multipurpose vehicle market (1995–2002), 163–180

Risk aversion and under–hedging, 181–198

The uncertainty of outcome and scoring effects on Nielsen ratings for Monday Night Football, 199–211

The wage–price spiral: International evidence and implications, 212–240

Internal markets or hierachies: Transfer prices or budgets?, 241–255

Evaluating and adjusting for chain drift in national economic accounts, 256–273

Voluntary (environmental) standards, 275–285

The leverage–value relationship puzzle: An industry effects resolution, 286–297

Executive share ownership, trading behavior, and corporate control: Evidence from top management turnover during financial distress, 298–312

The Financial Services Modernization Act: Evolution or Revolution?, 313–339

The home team weather advantage and biases in the NFL betting market, 340–354

Ownership structure and corporate decision–making, 355–357

CEO overconfidence, CEO dominance and corporate acquisitions, 358–379

Ownership structure and operating performance of acquiring firms: The case of English–origin countries, 380–405

Institutional and individual investor preferences for dividends and share repurchases, 406–429

Ownership structure and minority rights: A Latin American view, 430–442

Leverage and business groups: Evidence from Indian firms, 443–465

Large shareholder monitoring and regulation: The Japanese banking experience, 466–486

An empirical examination of intraday volatility in on–the–run U.S. Treasury bills, 487–499

Does underwriter reputation matter in the municipal bond market?, 500–519

Cubes to quads: The move of QQQ from AMEX to NASDAQ, 520–535

Equity market data, bank failures and market efficiency, 536–559

Do retail gasoline prices rise more readily than they fall? A threshold cointegration approach, 560–574

Fractals or I.I.D.: Evidence of long–range dependence and heavy tailedness from modeling German equity market returns, 575–595

doi:10.1016/S0148-6195(07)00080-X
